

CANHEART Students

Student	Project	Supervisor	Institution
2016			
<i>Arielle Brickman</i>	Relationship of provider volume and income with performance measure adherence among patients with, or at risk of, cardiovascular disease	Jacob Udell	York University/Women's College Hospital
<i>Geerthana Jeyakumar</i>	Measuring stroke incidence, mortality, risk factor prevalence and the quality of ambulatory care for secondary stroke prevention in rural Ontario	Maira Kapral	Royal College of Surgeons in Ireland/Institute for Clinical Evaluative Sciences
<i>Geoffrey Lau</i>	Association of high-density lipoprotein cholesterol with non-fatal cardiac and non-cardiac events	Dennis Ko	McMaster University/Sunnybrook Health Sciences Centre
<i>Jasjit Singh</i>	Frequency and variation of electrocardiograms in low-risk patients	R Sacha Bhatia	University of Ottawa/Women's College Hospital
<i>Giancarlo Di Giuseppe*</i>	Incidence of heart failure in immigrants to Ontario, Canada: a CANHEART immigrant study	Jack Tu	University of Toronto/Sunnybrook Health Sciences Centre
<i>Kelvin Ng*</i>	CVD prediction rules in multi-ethnic populations	Jack Tu	McMaster University/Sunnybrook Health Sciences Centre
* Funded/Co-funded by Canadian Vascular Network			
2015			
<i>Alyssandra Chee-A-Tow</i>	Temporal changes in the effectiveness and safety of PCI of coronary chronic total occlusions	Harindra Wijeyesundera	University of Toronto/Sunnybrook Health Sciences Centre
<i>Danielle Hirsh</i>	Actionability of Performance Indicators	Sharon Johnston	University of Ottawa/Bruyère Research Institute
<i>Geoffrey Lau</i>	LDL, statins, and new-onset diabetes	Dennis Ko	McMaster University/Sunnybrook Health Sciences Centre
<i>Ingrid Cheung*</i>	Characteristics of Ontario's health regions	Jack Tu	University of Toronto/Sunnybrook Health Sciences Centre
<i>Jane Park*</i>	Socioeconomic status and cardiovascular outcomes	Jack Tu	University of Ottawa/Sunnybrook Health Sciences Centre
* Funded by Canadian Vascular Network			
2014			

<i>Zain Sohail</i>	The risk of heart disease in immigrants - Is there any evidence for a healthy immigrant effect?	Jack Tu	Institute for Clinical Evaluative Sciences (ICES)
<i>Russanthy Velummailum</i>	Regional variations in ideal cardiovascular health	Jack Tu	ICES
<i>Mostafa Alabousi</i>	Performance standards of primary care prevention in cardiovascular disease	Jacob Udell	ICES/Women's College Hospital
<i>Manizheh Azadeh</i>	The relationship between cholesterol and health outcomes	Dennis Ko	ICES/Sunnybrook Health Sciences Centre
<i>Danielle Hirsh</i>	Matching performance indicators to professional competencies on inter- professional primary healthcare team members	Sharon Johnston	University of Ottawa/Bruyère Research Institute
2013			
<i>Christopher Tran</i>	Variations in ambulatory care and outcomes for rural patients with coronary artery disease	Sacha Bhatia	Women's College Hospital
<i>Derek Wong</i>	Impact of ethnicity on cardiovascular disease outcomes in Ontario	Douglas Lee	ICES/ University Health Network
<i>Luke Proffitt</i>	Design a KT strategy identifying audiences and communication strategies for the performance indicators being used in the QUALICO PC study and CANHEART	William Hogg	University of Ottawa/Bruyère Research Institute
2012			
<i>Andrew Micieli</i>	Quality-adjusted survival and costs associated with stroke prevention strategies using a Markov microsimulation	Harindra Wijeyesundera	Sunnybrook Health Sciences Centre/ICES
<i>Ryan Kelly</i>	What is the impact of primary care model type on referral rates to specialists?	William Hogg	University of Ottawa/Bruyère Research Institute
<i>Kelly Lau</i>	Number of cardiac risk factors in patients with stable coronary artery disease prior to first myocardial infarction	Dennis Ko	ICES/Sunnybrook Health Sciences Centre
